Step 1
Go to your oxwall root, then go to in the folder:
ow_includes/config.php
then aktivate the OW_DEV_MODE for example: ('OW_DEV_MODE', **true**);

 Step 2
Go to your oxwall root, then go to in the folder:
ow_system_plugins/base/views/controllers/
then overwrite the join_index.html with purchased join_index.html

step 3
Go to your oxwall root, then go to in the folder:
ow_themes/yourtheme/images/ for example: ow_themes/graphite/images/
then add the image 1.jpg

step 4
Go to in your oxwall root, then go to in the folder:
ow_includes/config.php
then deaktivate the OW_DEV_MODE for example: ('OW_DEV_MODE', **false**);

and now is finished ☺

a lot of fun with oxwall page
