

Installation & Upgrade Guide for Mobile Fox plugin

Please follow all steps in this installation guide in order to make this plugin work properly

If you need any assistance, please submit a new ticket at the client area (<http://oxwall.younetco.com/client>)

Requirements

1. Oxwall version: Please check ChangeLog.html for the best compatible version.

Installation Steps

1. Extract your downloaded package to your hard disk.
2. Upload all files and directories from the "upload" directory to your Oxwall root directory.
3. Go to Admin Dashboard > Plugins > Available Plugins
 - Find the plugin named "YouNet Mobile Application",
 - Click "Install".

Upgrade Steps

1. Extract your downloaded package to your hard disk.
2. Upload all files and directories from the "upload" directory to your Oxwall root directory.
3. Go to Admin Dashboard
 - On "Platform update request",
 - Click "Update".

Congratulations! You finished the Installation/Upgrade process.
