

How to manage Video Instant Messenger Plugin ?

This plugin based on modern WebRTC technology. WebRTC is a free, open source project that provides browsers and mobile applications with Real-Time Communications (RTC) capabilities such as audio, video and text messaging between users via simple APIs by utilizing the browsers. The WebRTC components have been optimized to best serve this purpose. You can find more information here: <https://en.wikipedia.org/wiki/WebRTC>.

Plugin settings

As soon as you install the plugin, settings will be available for you. The settings allow adding and removing STUN and TURN servers. The list of free STUN and TURN servers is available in the plugin by default. If you need to increase the capacity of the channel, you can use the paid TURN servers or configure your own TURN server if it necessary.

How to make a Video call?

Note: The Video Call button will display only for online users.

Desktop version

Go to the User profile page you want to contact. Find the Video Instant Messenger widget below the avatar. Click the **Video call** link to make a call. Or you can choose the **Video call** item from the drop down **More** menu.

The screenshot displays a user profile for Jane Smith. At the top, the name "JANE SMITH" is shown. Below it are navigation buttons: "SEND PRIVATE MESSAGE", "ADD TO FRIENDS", "FOLLOW", and a "MORE" dropdown menu. A circular profile picture of Jane Smith is on the left, with a "CHAT NOW" button below it. To the right of the profile picture is a dropdown menu with options: "Send gift", "Flag", "Block", "Grant credits", and "Video call". Further right is a "BASIC" information section with the following details:

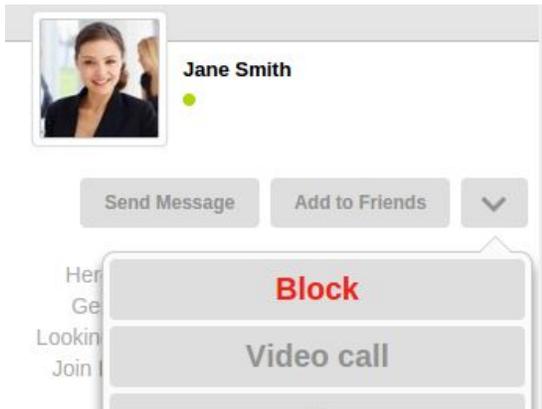

Real name	Jane Smith
Gender	Female
Looking for	Male
Here for	Fun
Join Date	21/10/2015

Below the profile information is a "Newsfeed" section with a text input field "What's happening?". A post by Jane Smith is visible, stating "Jane Smith uploaded 14 new photos to Nature album". The post includes two images: a butterfly on a yellow flower and a landscape with a path and trees.

On the left side of the profile, there are two widgets. The first is "Video Instant Messenger" with a "Video call" button. The second is "Photo Albums" with a "Nature" album thumbnail.

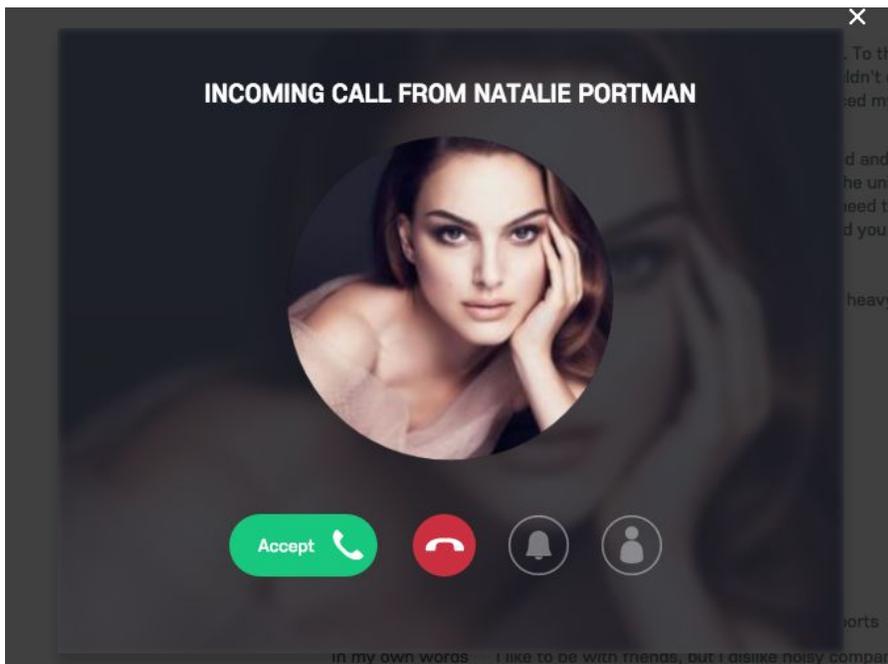

Mobile version

To start the chat with User in Mobile version, go to the User page and choose the **Video call** item in the drop down **More** menu.

You will see the window asking to allow the browser to use the microphone and camera. The window consists of the icons, which allow the following actions:

- disable the call (accept /decline)
- disable the (microphone) sound
- disable the (camera) image
- enter the full screen mode.

Who can call me settings

Oxwall

To configure permissions for incoming video calls, go to the Privacy page and choose the corresponding setting for the **Who can send me video calls** item.

View my video	Everybody ▼	
View my events	Everybody ▼
